

## **Synchronizing Medicare policy across delivery systems**

**ISSUE:** There are different delivery system options available in Medicare, including the traditional fee-for-service (FFS), accountable care organizations (ACOs), and Medicare Advantage (MA). The Commission has been thinking about how those options relate to one another and how they should be synchronized.

**KEY POINTS:** We will discuss current payment rules for different Medicare options and highlight key issues that arise under current law.

**ACTION:** Commissioners should provide direction and feedback on our analytic questions and objectives for this work.
