

Mandated report: Developing a unified payment system for post-acute care

ISSUE: Section 2(b)(1) of the Improving Medicare Post-Acute Care Transformation (IMPACT) Act of 2014 requires the Commission to develop a prototype prospective payment system (PPS) spanning the post-acute care (PAC) settings, using the uniform assessment data gathered previously during CMS's Post-Acute Care Payment Reform Demonstration (PAC-PRD) (completed in 2011). The Act requires the Commission to submit a report by June 30, 2016, presenting an approach for a unified, cross-setting PAC payment system and, to the extent feasible, consider the impacts of moving to such a system.

KEY POINTS: This month we continue the Commission's discussion of a unified PAC PPS, including preliminary estimates of the impacts.

ACTION: Commissioners should discuss the findings and provide guidance to staff on the overall approach to fulfilling the mandate.
