

## MedPAC April 2020 Meeting Announcement

Due to public health guidance and restrictions related to the coronavirus outbreak, in lieu of a public meeting, MedPAC Commissioners will meet via videoconference on Thursday, April 2 in a closed session.

Commissioners will discuss and vote on recommendations in four issue areas that were discussed at length at our March public meeting:

- Challenges in maintaining and increasing savings from accountable care organizations
- Realigning incentives in Medicare Part D
- Redesigning the Medicare Advantage quality bonus program
- Improving Medicare's end-stage renal disease prospective payment system

Commissioners will also discuss their goal of moving toward models of value-based payment.

**We will make a transcript of their discussion, along with the staff presentations containing the voted-on recommendations, available on our website by COB Friday, April 3.**

We appreciate your understanding of the constraints on our ability to meet in public at this point in time. We look forward to meeting in regular order at our September 2020 meeting.
