

Modifying the A-APM incentive payment

ISSUE: Under current law, clinicians in Advanced Alternative Payment Models (A-APMs) receive an incentive payment on their Medicare professional services revenue if they meet a specified participation threshold each year between 2019 and 2024. Meeting this threshold also exempts clinicians from participation in the Merit-based Incentive Payment System.

KEY POINTS: This session will describe a policy option for revising the A-APM incentive payment.

ACTION: Commissioners will provide feedback and direction on the policy option.
